- Light weight

Standard Emergency switch for cut OFF the operation power. Durable contact units, which provides to select frequently and reliably the controlling load. Two position contact unit has mechanical lock-up feature for additional safety.

## Radio-remote Control

Podem offers RRC from well-known European RRC producers.

The models are compact-size, ergonomic handsets for the control of lifting, automation and material handling applications. The main advantages of this series include safety functions, and easy installation.

### Application:

The lifting market for radio remote control is a big and diverse market:

- EOT and Gantry cranes
- Electric hoists
- Mobile cranes
- Tower cranes

### Advantages:

Using radio equipment, you can control several crane motors independently or at the same time in tandem. Remote controlled use is safer for the operator who can position his or herself away from moving loads.
